He led in repeating the Scriptures Sentences, and announced Hymn No. 327, "O for a faith that will not shrink." Dr. S. J. Johnson. P. E. Leesburg District offered prayer. The choir chanted "Have Thine Own Way Lord," followed with a selection, "Sweet Hour of Prayer."

Scripture Lesson, Bishop Flipper, Exodus 33:1-11. The decalogue was conducted by Dr. A. P. Postell, P. E. South Ocala District.

Bishop Flipper made pathetic remarks concerning his recent attack of illness, the result of which made it unwise to attempt to preach, and which also, to do would be contrary to his physician's advice, and presented Dr. J. H. Clayburn, Editor of the Southern Christian Recorder to preach the ordination sermon. Dr. Clayburn offered prayer; selected his text Exodus 33:14. "And he said, My presence shall go with thee, and I will give thee rest." Subject: A definite promise of divine favor. The Gospel invitation was extended for joiners; no one responded. The Choir chanted the Lord's Prayer. Rev. A. W. Thompson led in singing a spiritual: "What a time singing with the angels." Bishop Flipper made brief remarks by way of words of appreciation for the message brought to the conference, and asked for an offering. The Finance committee lifted the offering.

Bishop Flipper conducted the Ordination Ceremony. The following were ordained: Deacons Rudell Clyde Snellings, Glover Gaines, Eugene J. Orr, and Frank L. Curtis. Elders: Haywood Jesse Benson, and John Benjamin Blacknell, Jr.. Dr. G. E. Curry, P. E., East Jacksonville District, Consecrated and Administered the Holy Communion to those ordained, assisted by Drs. S. J. Johnson, P. E., J. A. Brown, P. E.

Bishop Flipper delivered to the Deacons and Elders their Parchments.

The Bishop announced Hymn No. 277, "Jesus the name high over all," which was sung by the congregation. Rev. W. G. McGill offered prayer.

Bishop Flipper made closing remarks touching upon the work in Florida, the loss of more than 1000 members, fatherly admonition to both Ministerial and Lay, closing with words of thanks and appreciation to all of those who in any way contributed to the profit and welcome of the conference. He read the Transfers, and Appointments of the Orlando Florida Conference. (See Appointments.) Doxology. Benediction, Rev. J. H. Clayburn.

Signed on behalf of the Orlando Florida Conference this 2nd day of February, A D. 1936.

JOSEPH SIMEON FLIPPER. Presiding Bishop

(Attest) C. H. BOER. Chief Secretary.

We your committee on Temperance ubmit the ollowing as our report:

Throughout the centuries there have been many earnest efforts to solve the subject Temperance, and every human effort to solve it has ailed to some extent.

Only the miracle of grace wrought in individual hearts by the Holy Spirit has many times snatched never-dying souls as brands from the burning by delivering them from the power of drinks and other intemperance habits.

We would therefore, first of all, point men to our crucified and risen Saviour and Lord, that he may solve this difficult problem for them.

STATE OF THE CHURCH

Deland, Florida—January 31, 1936

To the Bishop, Officers and Members of the Orlando Florida Annual Conference of the A. M. E. Church—

Greetings:

We your committee on the State of the Church beg to submit the following as our report:

The state of the church is a question of vast importance and far-reaching. First, we understand the church to be a body of believers of the same creed, rights and ecclesiastical authority, this then does take in all denominations and bands of organized believers in Christ and the followers of His life. But WE shall deal with the question only as it affects us as a denomination.

The Organization

The A. M. E. Church was organized in April in 1816 with 16 delegates representing 5 local churches. It was in 1787 in St. George M. E. Church in the city of Philadelphia that the religious dignity of 16 men

and women of our group were insulted as the white brethren attempted to deprive them of their christian liberty, and because of this insult, a church of color was organized called BETHEL, and led on by the sainted Bishop Allen. For 29 years there was much aggritation as to the legality of Bethel Church; there were law suits one after another, but being fired by the inspiration of the Holy Spirit, and the guidance of Jehovah, the organization of African Methodists marched on. following its leader.

Its Growth

From the launching of the old Bark in 1816, she has sailed steadily on, and the flag of African Methodism has been oisted in Canada, the British Isles, So. America, South and West Africa, and today she flourishes as a bay tree planted by the rivers of water. For 120 years the old bark has sailed on. 55 Bishops have been ordained, and today there are 15 Episcopal Districts, presiding over by 14 Bishops; 284 Presiding Elder Districts, over 7,000 pastors, 8,00 churches with a membership of 8000,000.

Its Struggles

Like all christian organizations, the A. M. E. Church has had its foes to fight without and from within, but out of all the Lord has brought us safe thus far, following on in the way of the fathers, from its insipieny great has been its struggles. We have in some degree drifted from the old land mark, and in some measures seem to be drifting toward some submerged hock, but being divinely planted, she has weathered the storm, and in the midst of all her struggles, the old bark is setting plum on its keel and going forward.

The spiritual condition is not what it should be and because of the financial depression, finance has not been to our liking, but with God's help, we feel that the light is just ahead.

So we sing, "Through many dangers, toils and snears, We have already come; 'Tis Grace has brought us safe thus far, And Grace will carry us on."

STATE OF THE COUNTRY

Deland, Florida—January 31, 1936

To the Bishop and Conference:

The arduous task of writing on this subject has been assigned us, and we beg leave to submit our report thereon. The limited time allotted us and the circumstances connected therewith prevent us from doing justice to the occasion.

The signs of the times point to a let-up in the grip by which the monster Depression has held our country for sometime. It is said that there is a general wave of prosperity sweeping over the country, and we are glad to note that this is slightly felt in the rank and file of

our people, and that there are fewer of the in the breadline and on direct relief.

The New Deal, the Bonus Bill, the approach of the general election along with the unrest that always features in the campaigns for the election of President of our country; the repeal of the 18th Amendment to the Constitution of the United States are some of the things that are gaining the attention of those concerned with the welfare of our country.

The recent rulings of the United Supreme Court in which some of the pet schemes of the present administration have been declared unconstitutional seem to have halted the onward march of what was causing our country to drift into autocracy.

While the Ethiopian War threatens the peace of Europe, it is gratifying to know that it seems to be the desire and opinion of the best minds of our country to keep our country out of mingling with the affairs of Europe to the extent that we shall not be drawn into the impending conflict; therefore a strong influence has been brought to bear to maintain neutrality on our part.

We regret to know that there were 19 lynchings in our country last year, and that the Anti-Lynching Bill failed in its passage during the last session of Congress. We are hoping that enough influence may be brought to bear to warrant its passage during the present session of the Congress.

The Scotsboro Case is still unsettled. Recent happenings connected therewith give us to know that our country is not altogether rid of that prejudice that has held a firm grip on our country for many decades.

The present condition of affairs calls for men of sound judgment and solid piety to man our churches; men who will not think their done when they leave the pulpit; men who will join in all civic and economic movements that tend to the uplift and advancement of our people and show themselves prepared to lead those entrusted to their and keeping.

Respectfully submitted,
S. G. BAKER

REPORT ON EDUCATION

To the Bishop and Members of the Orlando Florida Conference now in session:

I submit to you the following as my Report on Education.

The American educational system shares a common parentage with that of other countries in having been inherited from the spread of knowledge estimated by Protestantism, an dfurther back, by the Itallian Renaissance and Grecian culture.

During the early years of the development of the United States, only the male was exposed to receive an education and the Church had the privilege of saying just what type of training he was to receive and what subjects were to be taught. Modern Democracy, broadening the scope of that inheritance, affirmed that it was the duty of society not only to educate all the people, but break down the barriers that reserved higher culture for the well placed and restricted the education of the poorer elements of the population to elementary knowledge.

The United States has been the most forward-looking of all countries in democratizing education by discarding standards that measured the quality and extent of education according to a pupil's social grade and family resources. The wealth of many successful Americans has been poured into college endowments to enable people at large to have the best that scholarship can offer. Public and collegiate schools opened the way to all culture for every student disposed to pursue learning.

After the Revolution, the States set themselves the task of fostering education. They were mainly interested in the higher branches. Washington, as did Jefferson and Madison, wanted a national university, but none was established, and there is no such institution today. At that time, elementary instruction remained confined to private or local effort. The establishment of public systems of education that fitted the times began in 1780 in Massachusetts and Connecticut where state boards of education were organized through the efforts of two pioneers of modern education, Horace Mann and Henry Barnard. The conception of educational functions and service widened bringing about a curriculum to fit the needs of the youth in his ever changing environment until today it is an integral part of the upbringing of youth and embraces a field that far surpasses that in any parts of the world. It seeks to meet the educational needs of everybody without restriction as to age or subjects, and includes physical and mental defectives and the delinquent. The adult with a neglected education is as much its concern as the uninstructed young.

The general spread of knowledge can best be visualized by the statement that in 1930 there were 277,609 educational establishments in the United States, composed of 271,319 public-school buildings, 618 colleges, universities and professional schools, 10,283 private secondary schools, and 1,755 nurse training schools.

While viewing the facts that were just given, we are sure to ask ourselves the question, what are we as a race doing to insure for our youth the educational opportunities that will give them the freedom and independence that the race is now seeking? I am proud to say that we have some of the best universities and colleges in the country, owned and operated by our people, and yet prouder I am to say that the grand old African Methodist Episcopal Church has done and is still doing its part to afford educational opportunities for Negro

boys and girls to receive a wholesome, Christian Education. Wilberforce University is recognized as one of the leading Negro Institutions of Learning in the United States; Kittrill, Allen, Morris Brown and many others that are operated by the A. M. E. Church are holding their rightful places as leaders in education in their respective states. Then we cannot afford to close without mentioning Edward Waters College, the pride of the African Methodist Church in Florida, which is being steered through this uncertain economic period by the fearless and aggressive leadership of Bishop J. S. Flipper. Sharing with Bishop Flipper in the vast responsibilities of the institution is Florida's own son, President C. S. Long, Jr. The youth of Florida will find in this school opportunities which are second to none.

And now allow me to conclude by saying, that there are marked changes in the American social and economic life which have reacted in such a way that the influence of the home upon many children has been diminished, thus enlarging the functions and responsibilities of the schools. And now the instructor has become a social guide as well as an instructor of knowledge.

REPORT OF THE COMMITTEE ON DEEDS

Deland, Florida, January 31, 1936

To the Bishop and Conference:

We, your Committee on Deeds, beg leave to render our report:

We received for examination one deed from Rev. P. M. Murrell in which Ben Johnson conveyed by Warranty Deed Lot 20, Block 2, of the Johnson Subdivision to the town of Webster, Florida, as Trustee, to the Trustees of Mount Pisgah A. M. E. Church, Col.

This deed was not made according to the form laid down in our Book of Discipline. Neither was the word Colored needed therein; but since it is a Warranty Deed, we recommend its acceptance by the conference.

Your committee recommend that in the future care be taken in having deeds made to have them made according to the form given in our Book of Discipline; that as far as possible purchases not be made until abstract of title is furnished and that same be passed upon by reputable lawyers; that under no circumstances property be purchased on Quit Claim Deed neither by Tax Deed, as they do not give clear title and in many cases causes trouble.

Deed submitted for examination has been returned to Rev. P. M. Murrell.
